Office of the Assistant to the Director

SUBJECT : Background Information on Milton Academy  
for your speech on 11 June 1976

Milton Academy was chartered in 1798 and is proud of its tradition inherited from the New England landgrant academies. Milton has 830 students in kindergarten through grade 12. The Lower School (grades 1-6) is coeducational. There are two Upper Schools, one for boys, (395 students) one for girls (270 students). Boarders are accepted in the upper grades and there is an equal number of day students.

The 125-acre campus is equidistant from Boston, the sea, and the Blue Hills Reservation which is used for many outdoor programs. The school has an active cultural and artistic program and draws heavily on nearby Boston and Cambridge to supplement it. Interscholastic athletics are, not unexpectedly, important.

The Academy helps students to participate in Community Action programs. It also has affiliations with other schools to permit study abroad.

The academic program is broad, and emphasizes the liberal arts. The school clearly has an excellent record in placing its students in the most desirable colleges and universities.

Note: There are no other guests whom you must acknowledge before you begin speaking.
